

Military-trained, ASCP/BOC certified Medical Laboratory Technician ASCP/BOC MLT (Military-trained) to B.S. in Medical Laboratory Science

This transfer plan is intended for students who have earned ASCP/BOC MLT certification through a U.S. military training program who are interested in pursuing B.S. in Medical Laboratory Science at Stevenson University. These students receive automatic admission to the Stevenson University Medical Laboratory Science program upon acceptance to the University. The equivalencies below demonstrate how a student can meet the requirements of the B.S. in Medical Laboratory Science. Please note:

- Only courses from the military training program that have SU course equivalencies are displayed. This guide does not show all transferable courses a student may have taken in the military training program or at another 2-year or 4-year institution
